ORGANIZATION THAT STRENGTHENS MINISTRY

Our Church Calendar isn't just packed with features — it's designed to make ministry easier. From assigning group admins and managing building requests to sending instant notifications and preventing double bookings, every tool works together to keep your church organized and running smoothly.

Building & Room Request System

Church members can submit requests to use buildings, rooms, or facilities — making it simple to manage weddings, meetings, classes, and special events.

Unlimited Groups & Buildings

Create as many ministry teams and private calendar groups as your church needs — no limits, ever. Manage multiple campuses, rooms, and facilities all inside one powerful calendar system.

Private Calendar Groups

Create secure, invite-only calendars for specific ministries or teams — so only the right people see the right events. Perfect for staff meetings, worship rehearsals, leadership planning, or sensitive church activities.
